

# Privacy Policy

This Privacy Policy regulates the procedure for processing and using personal data by the Administration of the website <https://keyflight.io> (hereinafter keyflight.io or the Website).

By using the website keyflight.io the User expresses their entire consent to collection, processing and usage of their personal data. Should the User refuse the terms of this Privacy Policy, he undertakes to cease using the Website.

## 1. Basic Terms and Definitions

"User" — a legally capable individual entering into this Agreement in their vested interest.

"Website" — online resources in the ororo.tv domain and subdomains.

"Agreement" — this agreement with all its addenda and amendments.

## 2. Personal Data Collection and Processing

The Administration collects and processes the following User personal data:

- email address
- IP address
- information inside cookie files
- other information

The Administration seeks to protect User personal data to the maximum possible extent and uses state-of-the-art technology for safe information storage. The Website Administration does not sell or transfer User personal data to third parties without the User's consent.

## 3. Personal Data Usage

The Website Administration may use personal data in the following cases:

- for User identification
- for rendering services to the User
- for User payment processing
- for emailing promotional and informational content
- for User request processing
- for upgrading the service and content quality

## 4. Amending Personal Data

The User may amend personal data in the member's account. The User guarantees that data submitted are valid and do not relate to third-party data.

## 5. Liability Limitation

The Administration does its best to observe this Privacy Policy, but we cannot guarantee information integrity in the event of exposure to factors outside our control, resulting in information disclosure. The Website keyflight.io and all information on it are presented as is,

without any guarantees. We disclaim liability for adverse effects and any damage caused by limited access to the Website URL or visiting the Website and using information on it.
